

Functional Requirements

1. Users should be able to sign up, log in/out, and reset their password, with optional social login.
2. Users should be able to receive a podcast on any topic submitted.
3. Users should have access to recommended or trending content via a personalized discovery feed.
4. Users can listen to and view previously created podcasts.
5. Users should have a functional UI that includes media controls and allows for the podcast to be sped up or paused.
